

Ilham Arifin

I am currently a recent graduate from a private educational institution and very interested in the IT world, especially in the field of web development. With the skills I currently possess, I am able to create simple web pages using HTML, CSS, and JavaScript. My goal now is to continue developing these skills in order to create more useful products for our society.

Work Experiences

Production Department • PT. Kampoeng Kuliner Indonesia

Jun - Dec 2023

The production department is a specialized unit responsible for processing raw food materials into semi-finished products that will be distributed to the company's outlets. There are several important things to consider in this job, including:

- Cleanliness
- Teamwork
- Speed
- Agility
- Precision
- Safety

Project Experiences

Create Web Pages

Jun 2023 - Now

Create a web page based on my own ideas or following the instructions I got from a YouTube tutorial or E-course that I'm taking.
